

PID	Abstract Title
TG0900321	Sustainability Rating and Grading Framework for Products (MERN Stack Application)
TG0900616	Design and build an autonomous drone platform
TG0900655	Live- Speak
TG090145	Passenger Comfort Modeling in an Automotive Suspension System
TG0901517	Real-Time Speech-to-Text Captioning for Live Events: A Cloud vs. Edge AI Approach
TG0901956	A Standardized Sustainability Rating Framework for Product Life Cycles
TG0902037	Accelerated Prediction of Stamped Panel Stiffness Using AI/ML for Automotive Design
TG0902137	Next-Gen Learning Tool: Automated Evaluator for Flowcharts, Algorithms, and Pseudocode
TG090300	High-Fidelity Prediction of Stiffness in Stamped Panels Using AI/ML
TG0903519	Supercapacitor-Enhanced Hybrid Energy System for Reliable and Sustainable Lighting
TG0904180	AI-Powered Rubric-Based Evaluator for Flowcharts, Algorithms, and Pseudocode
TG0904212	A Physics-Informed Graph Neural Network for Rapid Prediction of Stiffness and Deformation in Stamped Automotive Components
TG0904225	AI-Powered Wearable Healthcare System for Real-Time Patient Monitoring and Triage
TG0904234	Flexible Robotic Arm for safe and adaptive industrial operations
TG0904299	Bio-inspired Flexible robotic arm for Industrial Operation.
TG0904320	LiveSpeak: Intelligent Hybrid Cloud-Edge AI for Real-Time Captioning
TG0904369	Edge AI - Enabled Surveillance Platform
TG0904388	Ergonomic Smart Toilet with Multi-User Identification and Automated Biomarker Monitoring for Continuous Health Tracking
TG0904389	AI-Driven Geometric Validation for Flow Instrument Compliance in 3D Piping Models
TG0904395	Stamped Panels Stffness Predicting AI/ML Model
TG0904420	Fridae
TG0904427	"Adaptive AI-Driven Threat Modeling: A Modular Framework for Engineering Sector Cybersecurity"
TG0904460	ThreatGuard-AI: An Agentic AI Framework for Adaptive Cybersecurity in Engineering Systems
TG0904562	LiveSpeak: AI-Based Live Event Captioning via Speech Recognition
TG0904591	Automated Validation of Flow Instrument Installation in 3D Piping Models
TG0904612	Framework for On-Road Dynamic Automobile Powering Using Roller Pantograph Mechanism
TG0904638	High-Fidelity Prediction of Stiffness in Stamped Panels Using AI/ML
TG0904639	SMART TOILET
TG0904641	IMU-Driven Validation of Passenger Comfort in Automotive Suspensions
TG0904654	Life Cycle Assessment (LCA) Driven Framework for Product Sustainability Rating and Grading

TG0904686	AI-Driven Real-Time Stiffness Prediction System for Stamped Panels
TG0904720	Smart Toilet: An AI-Driven System for Automated Urine and Stool Analysis
TG0904755	LiveSpeak: A Hybrid Edge-Cloud AI Architecture for Ultra-Low Latency Live Event Captioning
TG0904856	AI-Driven Video Localization on Edge Devices: A Novel Approach - KlouAI
TG0904903	Autonomous Drones: An Edge AI-Enabled Surveillance Platform 5056
TG0904946	Smart Toilet for Automated Urine and Stool Analysis
TG0905007	Hybrid Super capacitor-Battery Energy Storage for Efficient Lighting
TG0905050	AI-Powered Rubrics-Based Evaluator for Flowcharts, Algorithms, and Pseudocode
TG0905200	AI-Based Sustainability Rating Framework for Product Life Cycle Assessment
TG0905231	Hear My Hands
TG0905260	Modeling and Analysis of Ride Comfort in Automotive Systems
TG0905313	Smart Toilet for Automated Urine and Stool Analysis
TG0905364	Flexible Robotic Arm for Safe and Adaptive Industrial Operations
TG0905367	Polyverba: Real-time AI based multilingual captioning system
TG0905379	Power on the Move: Roller Pantograph for Smarter, Greener Roads
TG0905438	Framework for On-Road Dynamic Automobile Powering Using Roller Pantograph Mechanism
TG0905466	Microbot - Shape Changing Robot
TG0905485	CyberSentinel-AI: An Agentic, Modular, and Adaptive Threat Modeling Framework for Engineering Cybersecurity
TG0905487	LiveSpeak: A Dual-Stream Chrono-Contextual Framework for High-Fidelity, Low-Latency Live Event Captioning
TG0905491	AlgoEval AI – Intelligent Evaluation System for Flowcharts, Algorithms, and Pseudocode
TG0905492	High-Fidelity Prediction of Stiffness in Stamped Panels Using AI/ML
TG0905513	Development of half pantograph and rigid busbar system for power transfer in EV
TG0905608	LiveSpeak: Hybrid Edge-Cloud Captioning for Ultra-Low Latency Events
TG0905640	AI-Driven Geometric Validation of Flow Instrument Installation in 3D Piping Models
TG0905788	Automated Verification of Flow Instrumentation in 3D Piping Models
TG0905802	TDCR - Tendon Driven Continuum Robot
TG0905840	Automated Compliance Checking for Flow Instruments Using 3D Model Analysis
TG0905844	INTELLIGENT, IOT-ENABLED HESS FOR ADVANCED LIGHTING SYSTEMS
TG0905851	Passenger Comfort Modeling in an Automotive Suspension System
TG0905884	AEROVISION: An Autonomous Edge-Powered Drone for Predictive Intrusion Defence
TG0905889	LumiCap: A Hybrid Supercapacitor-Battery System for Smarter, Greener Lighting Efficiency
TG0905926	AI-Powered Video Localization Across Multiple Languages
TG0905933	Smart Toilet for Automated Urine and Stool Analysis

TG0905951	Power Pulse
TG0906014	Dynamic On-Road Electric Vehicle Powering Using a Roller Pantograph Mechanism, Design, Simulation, and Prototype Development
TG0906063	"EchoBridge: End-to-End AI Video Dubbing and Localization Pipeline
TG0906117	Intelligent Rubrics-Based Evaluator for Flowcharts, Algorithms, and Pseudocode
TG0906224	PolyGlot AI: A Context-Aware Multimodal System for Automated Multilingual Video Localization with Lip-Synced Dubbing
TG0906267	Passenger Comfort Modeling and Validation for Automotive Suspension Systems
TG0906289	AI-Powered Stiffness and Deformation Prediction for Stamped Components
TG0906353	LiveSpeak - AI-driven, real-time speech recognition framework
TG0906478	WatchPoint: Agentless Threat Defense
TG0906530	TriStor-Lite: Dynamic Energy Orchestration for Sustainable Smart Illumination
TG0906621	LiveSpeak: Real-Time AI-Powered Captioning System for Live Events Using Cloud and Edge Speech Recognition
TG0906711	Passenger Comfort Modeling in an Automotive Suspension System
TG0906723	Passenger Comfort Modeling in an Automotive Suspension System
TG0906760	Passenger Comfort Modeling in an Automotive Suspension System
TG0906827	RubricAI: The Intelligent Logic & Algorithm Evaluator
TG0906864	PipelQ
TG0906909	Intelligent Rubrics based Evalator For Flowchart,Algorithm and Pseudocode
TG0907019	GlobalVid: Intelligent AI-Powered Video Translation and Voice Adaptation
TG0907068	Super-Lumen: A Hybrid Energy Storage System for Sustainable Lighting
TG0907077	Bringing Healthcare to Everyone: Real-Time Monitoring and AI Solutions (H - shirt)
TG0907203	Bringing Healthcare to Everyone: Real-Time Monitoring and AI Solutions
TG0907275	A Cost-Effective Edge AI Architecture for Continuous Multi-Parameter Health Monitoring.
TG0907327	Polyglot Vision: An AI-Powered Cloud Architecture for Seamless Video Localization
TG0907360	Smart Automation in HealthCare
TG0907406	3D pipping model
TG0907495	SmartDocs: AI Automation for Engineering Drawings and Datasheets
TG0907648	AI-Enabled Sustainability Rating and Grading Framework for Product Life Cycle Assessment
TG0907825	PULSS - Pneumo-Utilized Lexical Support System – an AAC device
TG0907836	NEURAHEALTH for AI-powered healthcare solution that enables real-time patient monitoring and prioritization.
TG0907863	LiveSpeak XR: Real-Time AI Captions with Emotion and AR
TG0907878	Intelligent Rubrics-Based Evaluation System for Flowcharts, Algorithms, and Pseudocode

TG0907918	LiveSpeak: Real-Time AI-Powered Captioning System for Live Events Using Hybrid Cloud-Edge Architecture
TG0907947	BIOEASE- A Hygienic Health Monitoring System For Everyday Use.
TG0908096	Smart.F
TG0908168	Intelligent Validation of Flow Instrument Installation in Parametric 3D Piping Models using Python-Integrated Grasshopper Framework
TG0908335	ShadowShield: Network-Centric Agentless Endpoint Detection and Response Platform with Behavioral Analytics and Zero-Touch Deployment.
TG0908517	Bridging the Subjective Gap: A Biomechanically-Coupled Model for Validating Passenger Comfort in Passive Suspension Systems
TG0908660	Autonomous Drones: Futuristic Technology
TG0908772	Agentless Endpoint Protection System v2.0
TG0908790	ClearSight — Practical Agentless Endpoint Protection
TG0908805	FlowCheck — Automated Validation for Flow Instrument Installation in 3D Piping Models
TG0908875	INTELLIGENT RUBRICS BASED EVALUATOR FOR FLOWCHART,ALGORIHTHMS AND PSEUDOCODE
TG0908948	LiveSpeak: AI-Based Live Event Captioning via Speech Recognition
TG0908972	Flexible Robotic Arm System for Adaptive Industrial Automation
TG0908973	Sustainable EDM Machining Using Cu–Ni–B ₄ C Novel Composite Electrodes with Vegetable-Based Dielectric Fluid: An Optimization and Performance Study
TG0909029	ECHOLIVE
TG0909064	GREEN BREEZE COOLER
TG0909098	AI enabled Unmanned Aerial System for Surveillance
TG0909199	AGENTLESS ENDPOINT PROTECTION SYSTEM
TG0909282	AI-Based Sustainability Scoring & Visualization
TG0909299	TEJAS (Transdisciplinary Engine for Juncture-based Analysis for Sustainability)
TG0909385	Hybrid Energy-Optimized Two-Wheeler for Sustainable and Efficient Urban Mobility
TG0909474	EVAPRO : Where Human Rubrics Meet Artificial Intelligence
TG0909539	Hybrid Supercapacitor–Battery Energy Storage System for Efficient and Sustainable Lighting
TG0909629	Delta 2.0
TG0909818	On-Road Dynamic Powering of Electric Vehicles Using a Roller Pantograph Mechanism
TG0909955	AI-Enabled Wearable System for Real-Time Patient Monitoring and Prioritized Care in Resource-Constrained Settings
TG0910002	EcoScore AI
TG0910004	AI-Enabled Automated Validation of Flow Instrument Installation in 3D Piping Models

TG0910028	Vision Language Pipeline for Fast Document Digitalization
TG0910138	Mathematical Modelling of Passenger Comfort in Vehicle Suspension Systems
TG0910180	Bringing Healthcare to Everyone: Real-Time Monitoring and AI Solutions
TG0910416	Aerial Assessment System
TG0910551	MindFlow: LLM-Powered Intelligent Rubrics-Based Evaluator for Flowcharts, Algorithms, and Pseudocode
TG0910706	CyberSentinel: Agentless Endpoint Defense System Using Behavioral Analytics and Threat Intelligence
TG0910758	Next-Generation Autonomous Drone Platform with Edge Intelligence and Energy Efficiency
TG0910843	The Agentless Endpoint Framework for Modern Enterprise Security
TG0910935	EcoRank AI
TG0910963	AI-Driven Multilingual Video Localization System for Automated Transcription, Translation, and Context-Aware Dubbing
TG0911000	Abstract: Edge AI-Enabled Autonomous Drone Platform for Real-Time Surveillance and Threat Detection
TG0911076	LiveSpeak: AI-Based Live Event Captioning via Speech Recognition
TG0911104	MEDI GLOVE AI
TG0911105	AI-Powered Video Localization Across Multiple Languages
TG0911120	SmartArm
TG0911216	AI-Powered Healthcare Solution for Real-time Patient Monitoring and Prioritization
TG0911227	OmniSense: Modular AI-Powered Wearable Ecosystem for Real-Time Rural Health Monitoring and Triage
TG0911326	AI-Powered Video Localization Across Multiple Languages
TG0911343	Empowering Rural Healthcare: Edge-Driven TinyML for Real-Time Vital Sign Monitoring
TG0911360	EdgeSentinel: Autonomous, Energy-Aware Drone for On-Device Surveillance and Threat Detection
TG0911392	A Hybrid Supercapacitor-Battery Energy Management System for High-Efficiency, Long-Lifetime Lighting Applications
TG0911471	Real time detection of ocular diseases using ensemble deep learning

TG0912002	LiveSpeak: Real-Time Hybrid ASR for Ultra-Low Latency Captioning
TG0912187	Adopting a Super capacitor or hybrid energy storage system that combines supercapacitors and batteries that significantly improves energy efficiency and reliability across various lighting applications.
TG0912300	AI-Driven Wearable for Cardio Pulmonary Health
TG0912303	Hybrid Energy Storage: Revolutionizing Lighting Efficiency Through Supercapacitor Integration

TG0912327	Bridging the Distance: An AI-Powered Health Network for Underserved Areas
TG0912385	Hybrid Energy Storage System for Smart and Sustainable Lighting Applications
TG0912399	VocaLingo: AI-Powered Multilingual Video Localization System
TG0912400	Comfort Modeling for Optimized Automotive Suspension
TG0912413	LiveSpeak: AI-Based Live Event Captioning via Speech Recognition
TG0912440	Intelligent Dual-Source Energy Module
TG0912456	Design and Implementation of an Energy-Efficient Edge-AI Drone for Autonomous Threat Detection
TG0912479	Adopting a Super capacitor or hybrid energy storage system that combines supercapacitors and batteries that significantly improves energy efficiency and reliability across various lighting applications.
